

ATTRACTIONS AT THE CENTRE

Panorama:

The main attraction of the Centre is a life – like Panorama of the epic battle of Kurukshetra. Standing at the centre of the cylindrical hall, one can feel the towering 34 feet high paintings of the episodes from the 18-day confrontation between the Pandvas and the Kauravas come alive before your eyes. The chanting of the Gita and distant war cries mingled with lighting illusions create the perfect ambience.

Indian Scientific & Technology Heritage:

Ground floor of the Centre holds an exhibition that documents the time travel through the 4500 years of Indian tradition in Science & Technology. The exhibition contains interactive exhibits, graphics, & visual panels, artifacts, video shows etc. on this theme.

Fun Science:

The fun science section invites one to play with them & explore the ‘How’ & ‘Why’ of common scientific phenomena. The interactive exhibits based on school curriculum attract the young children in particular.

3-D Film Fantasy:

One of the newly added section really gives a thrilling experience of 3-D effect by the film show. The visitors cheer up with surprise & enthusiasm when object seems to float towards them.

Chroma Key TV Studio:

The newly added section showing various interpretations of TV technology allows visitors to enjoy with many funny experiences.

Dinosaur Enclave:

The newly added section showing various species of Dinosaurs make one feel amazed & excited to learn about these ancient ancestors who survived on this earth for 1400 lakhs years.

Science Park:

Participatory exhibits installed in huge open science park where in visitors learn through play and the natural habitat unfolds itself in all its beauty and fragrance.

Bird's Enclave:

The newly added section in the garden unfolds about the Taxonomical description, salient features, identification points & uses of common birds and plants found in and around the campus of Kurukshetra Panorama & Science Centre.
