

Introduction & Objective:

This website has been designed for the students who are weak in studies. The quiz will upgrade the level of the students & brush up their knowledge.

The quiz has Multiple Choice Questions (MCQ). The MCQ are a sub set of what are referred to as objective questions. The Objective test largely used to test factual material and the understanding of concepts. Because of the objectivity and sense of marking is frequently used for testing large groups.

Advantages

The quiz is based on NCERT& CBSE study material. This will be helpful for the students preparing for school exam from 6th to 10th Class. This covers all the chapters of all the subjects from 6th to 10th classes. Each chapter has 50 to 100 questions. The student can choose language i.e. Hindi or English. PDF file of questions can also be generated.
